

major bugs

- [x] (0:06) read-only viewing of public html files and ipython notebooks was broken

major course bugs

- [x] (invite) -> (create to project to send invitation)
- [x] there is a bug setting the course title and description: <https://william.wstein.org/projects/940b3c5d-bf3d-40e5-9851-2421362705a7/files/demo-course.course>
- [x] major bug 2: adding an assignment doesn't work – or it does but you have to open and close the course file to see it; the state of who received the assignment isn't correct always. the state of who had the assignment collected isn't correct.

ipython improvements

- [x] link to standard ipython notebook server should go directly to the ipynb notebook
- [] link in i button to get ipython terminal. ????

other bug

- [] deleting a read only file should give an error.
